Dear Parent(s)/Guardians,

Based on the subject preference form collected from the First Years, I have now formulated the subject option groups for next year. According to surveys conducted with all the First Year students this week, these options will facilitate 93% of students to do all of their top three preferred subjects and the remaining students will get two of their top three. The career guidance teacher and I will meet those students not happy with the choice in the coming days.

Please complete this Confirmation of Subject Choice Form, sign, and return to me next Monday, May 19th. Thank you.

Le meas,
